

India's Great Empires Assignment

1. You have stolen Mr. Broviak's evil time travel machine. You must escape capture but don't know how to use the machine. After several attempts you finally push random buttons and *shazam* you are teleported back in time. You land in India and unbeknownst to you, your time machine is programmed for three stops in India - during three great empires. (Has Mrs. Randall had a hand in all of this....?)
2. Your mission: Collect information about each of the three great empires you visit and take this information back to Mrs. Randall. She has promised to make sure Mr. Broviak doesn't find out about your misadventure – as long as you do a really, really good job!
3. Complete the empires Chart. Put 5 main ideas in each category.
4. Which empire would you want to live in? Why? Support your answer with three facts about that empire.
